Education

Moscow Polytechnic University

Bachelor's degree, Information Systems and Technologies for Media and Design (2021-2025)

Work experience

3D Motion Designer / CG Artist, Freelance (Remote | March 2026 - Present)

- Developed visual concepts and motion graphics for None Better LLC.
- Created look development for Arrowhead Pictures.
- Produced short-form vertical social videos in Adobe After Effects.
- Created 2D motion graphics, animation, compositing, editing, and final delivery based on client briefs.
- Developed 3D graphics and animated scenes in Cinema 4D and Redshift, including lighting, camera setup, rendering, and compositing.
- Managed the workflow from brief interpretation and asset organization through animation, versioning, feedback, and final file delivery.

3D Motion Designer, Media Information Center Izvestia (Moscow | November 2023 - January 2026)

- Created 3D and 2D broadcast graphics for on-air packages, broadcast branding, openers, and infographics using Cinema 4D, Redshift, and After Effects.
- Contributed to the channel's on-air rebrand from design development through launch.
- Led the day-to-day work of two interns: assigned tasks, handled onboarding, trained them from scratch, and reviewed quality under broadcast deadlines.
- Built and automated After Effects templates with Expressions.
- Handled animation, rendering, compositing, and final delivery of broadcast assets.

2D Motion Designer, TOK Production (Moscow | May 2023 - November 2023)

- Produced collage-style 2D animation for a YouTube channel.
- Created video covers and visual assets for social media.
- Prepared motion graphics through animation, compositing, revisions, and final delivery in a high-tempo content workflow.
